Summary: Oneshot : Kendra has a talk with Bracken about their future and the decision they have to make...

Decision

****AN/** Hey guys ! I know this OS is a little bit short but that's something I came up with more than a year ago. I hope I didn't make any mistakes (normally I didn't, a good friend of mine is re reading my OS's). I hope you'll like this and that you also like the way I put things in a certain way... I know it was a very long time since those books have been published but I loved them especially the last one with Bracken. Anyway I hope you'll like this ;) Enjoy :)**

* * *

><p>- I talked to my mom, I said not as joyfully as I wanted to.<p>

- What did she say ? answered Bracken, as soon as I finished my sentence, with concern in his voice.

He came to me and took my face between his hands, forcing me to look at him in the eyes. Mine were full of tears and his full of despair even before he knew why I was upset. I guessed he knew what my mom said but I had to tell him.

- I went to see her and told her that we needed to talk and I started to say "Mom" but she stopped me before I could add anything. She said "Honey I know that you're 18 and that you want to make your own decisions and also that you're in love with Bracken but you know that if you become an Eternal there is no going back, never. I know that you picture your life with him but how long will it take before you hate your status? You saw how hard it was for some of them even when they were well surrounded. And even YOU know that it's going to be

hard even if you manage to overcome all of the pitfalls that will come, and they will. I'm sorry Kendra but even if you do, you may only be happy for 50 or 100 years but after that you'll may want children and considering the life you'll have, you won't be able to have that. And if you do, your children won't live as long as you. Do you actually believe that you will psychologically survive to your own children's death ? I am very sorry to be that hard Kendra, but you need to hear this and know all the facts before you make your decision. Especially when you can't go back."

I stopped talking because my tears were flowing down my face and my throat was so tight I couldn't speak. He kissed my forehead as I tried to stop crying.

- It's okay Kendra, you don't have to do this. He said with love and also sadness in his eyes.

- No I want this, I love you and I want to be with you forever. If that's what you want too. I know we can do anything as long as we're together.

- I don't know Kendra. Of course I love you and you're the love of my life, the past two years have been the best in my entire life and I've lived for a very long time. So obviously I want to spend the rest of my life with you, but not if you suffer for it. Seriously I want you to have the life you deserve, even if it's not with me. We can have children and they'll live as long as me because I'm a unicorn. But if you want to do that you have to want it.

- I want to, you have no idea how bad I want it.

- No you don't understand. You have to want it for yourself, not me. I wouldn't be able to live with myself if you only do it for me.

- Gosh, Bracken ! Don't you get it ? I don't only want to become an Eternal for you. Of course you're one of the main reasons why I want to do it but I also want to do it to give my life a purpose. Besides, I know that surviving my whole family will be one of the hardest thing I'll ever have to do. But knowing that you'll be with me, it makes me hope and believe that I'll get through grief thanks to you.

- Bracken, who turned back as he talked, faced me when I confessed my thoughts.

- Kendra, I love you so much, you have no idea.

- I actually think I do because I love as much, even more.

We looked in each other eyes seeing the love one feels reflecting in the eyes of the other. I knew what would happen after. My first time as perfect as I thought it would be. It was with the perfect man, at the perfect moment. And I knew I would remember it for the rest of my life, as long as that may beâ€|
